Jesse,

Thanks. I can review the draft scope. Please email it to me when you have time. It will fit with my review of Denver Radium OU8 groundwater and my previous research.

Subject: Radionuclides in Denver groundwater

Hello John:

Hope things are going ok with you. You may remember that some time ago you were helping me to find information about radionuclides in Denver groundwater. Denver submitted a draft scope. In it is information they researched. I was wondering if you have time to review that section of the scope.

Thanks,

Jesse Aviles
